SUMMARY

Highly motivated Frontend Developer with a strong foundation in JavaScript and React. Passionate about building responsive, user-friendly web applications and translating complex designs into reusable component. Proficient in Modern JavaScript, React Hooks, and Responsive Design, with additional experience in backend development to build and integrate robust APIs for end-to-end solutions.

SKILLS

Frontend: JavaScript, TypeScript, React, React Hooks, Context API, React Router, Tailwind CSS, Responsive Design, React-Hook-forms, HTML5, CSS3, Axios

Backend: Node.js, Express.js, Firebase (Auth, Firestore), REST APIs

Languages: JavaScript, TypeScript, Python, C , C++,

Tools & Others: Git, GitHub, NPM, Postman, Vite, Chrome DevTools, Figma

PROJECTS

Vet-Pet https://github.com/Aakash-ojha/Vet-Pet🔗
- Developed a responsive frontend application for pet and veterinary services using React
- Implemented client-side routing with React Router for smooth navigation
- Integrated frontend with a Django backend for handling data and APIs
- Designed clean, user-friendly, and responsive layouts
- Focused on performance, usability, and maintainable code structure

BookRoom 🔗
- Created service layer to fetch cabin/room data from Firebase
- Structured React app with modular code and planned Context API state management
- Tech Stack: React, React Router, Context API, Firebase, CSS / Tailwind css

EDUCATION

Tribhuvan University [Birendra Multiple Campus] — BSc CSIT [2022–2026]

Relevant Coursework: Operating Systems, AI, Java, DBMS, Networking, Cryptography, ASP.NET Core & C#, Compiler Design, DSA/DAA, Computer Graphics, Software Engineering, System Analysis and Design, OOP.
